RE: Structural Inspection and Adult Protective Service Review
Inspection Date: May 5, 2021
Subject: Wood County - Abandoned and Dilapidated Building Ordinance
Location Type: Private Residence
Address: 120 Glendale Road Vienna WV 26105

Dear Commission Members:

This structure is a single family home with two levels plus a basement. There was neither electricity nor running water. The pump to the well water was not functioning without electricity. The utilities have been off for approximately 60 days or more. The one male occupant who resided in the home was transported to a medical facility and admitted for treatment. Wood County Compliance officer was notified.

One resident was living in the basement of the home due to limited mobility to go anywhere else in the home. Said occupant was removed by adult protective services. The inspection yielded significant mold that has affected structural members of the home at the entry level. There was debris that filled the basement floor in its entirety. This includes secretion and sewage matter kept in jars/jugs. One basement floor bedroom was filled with debris and a leak. The mildew and sewage smell is toxic.

At this time; the existing conditions the home is further classified by the Abandoned and Dilapidated Ordinance as an unsafe structure Section 3.2 (a), an imminent danger (b) and unfit for human occupancy (c). The findings during the inspection yields a response from the County Compliance Officer and County Engineer to move forward closing the structure and condemning it Section 3.2 (d) closing of structure and Section 3.2 (g) Notice. Refer to page 2 for further ordinance detail and page 3 for images.

The recommendation is to move forward and demolish the structure. The existing conditions of the homes structural members due to mold and no utilities plus debris illustrates an un-salvageable and unsafe structure that is unfit for human occupancy. Feel free to reach me with further questions.
