Notes: Totals may not add due to rounding. Metrics (jobs, payroll, value added, and business revenues) represent various components of an airport's economic impact and are not additive. Where the table indicates no jobs but includes estimates for payroll, value added, and business revenues, individuals worked less than half-time on airport-related activities. To maintain consistency among airports in this study, activity considered "on-airport" is defined by what is on/at each airport and does not account for off-airport businesses. Sources: Calculations by EBP US using IMPLAN V.3 2018, 2021; WV AEIS Airport Manager Survey; Airport Tenant Survey; Commercial Air Passenger Survey; Transient GA Pilot & Passenger Survey, 2019; FAA 5010 Airport Master Record, FAA Terminal Area Forecast, Airline Data, Inc., 2018; Longwoods International, 2018

Free the money from the FAA Airport Improvement Program rules. Many of the airports need hangars or hangar repairs to maintain current infrastructure.

Make this zero match money so that all the airports Can execute the grants and so that the State of WV Does not have to search for the funds as well.

Support projects that can help aviation jobs.
