*The*

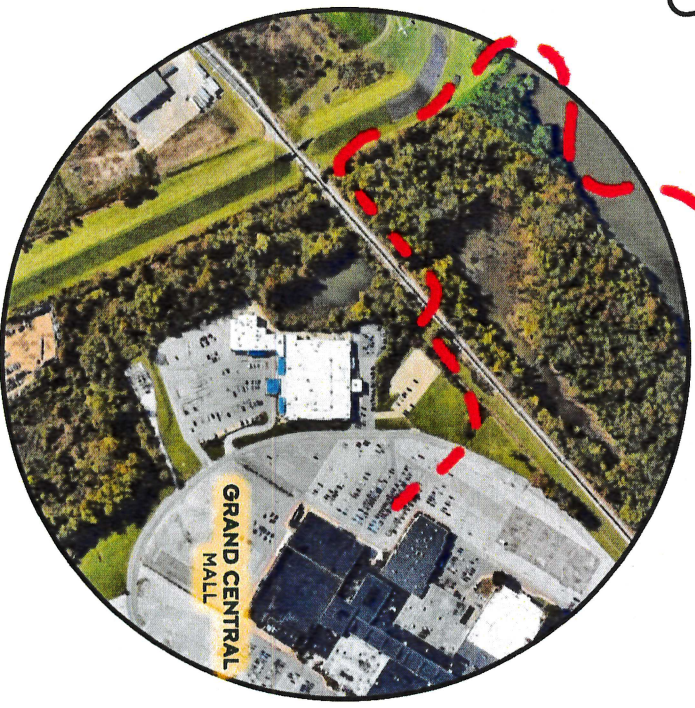

# APPALACHIAN

*Dreamway*

A comprehensive and family-friendly trail through Wood County means...

**BUSINESS  
HEALTH  
COMMUNITY**

For **Everyone!**

This open-ended concept demonstrates the possibility for Wood County to become a central hub for biking, hiking, and walking; not just locally, but in all of Appalachia!

# In Wood County...

1

**Just a few critical connections could bridge gaps in equity, access, and opportunity.**

---

## Happy Valley

Acting as the current "stop" for both the Parkersburg to Pittsburgh Trail and the North Bend Rail Trail, finalizing the Happy Valley connection would mean interstate connectivity. A bridge to south side Parkersburg also means thousands of residents are offered a bike and hike friendly path to our local college, WVUP!

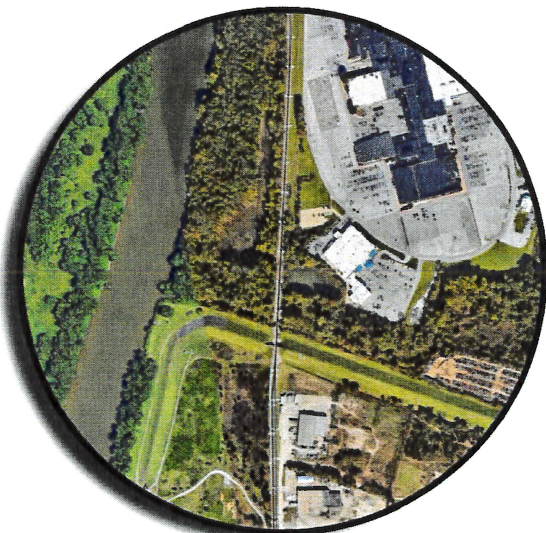

## Downtown PKB

As an existing center for economic activity, culture, and community events, improving access to downtown Parkersburg ties together what's already been built while fostering a foundation for further expansion into neighboring communities.

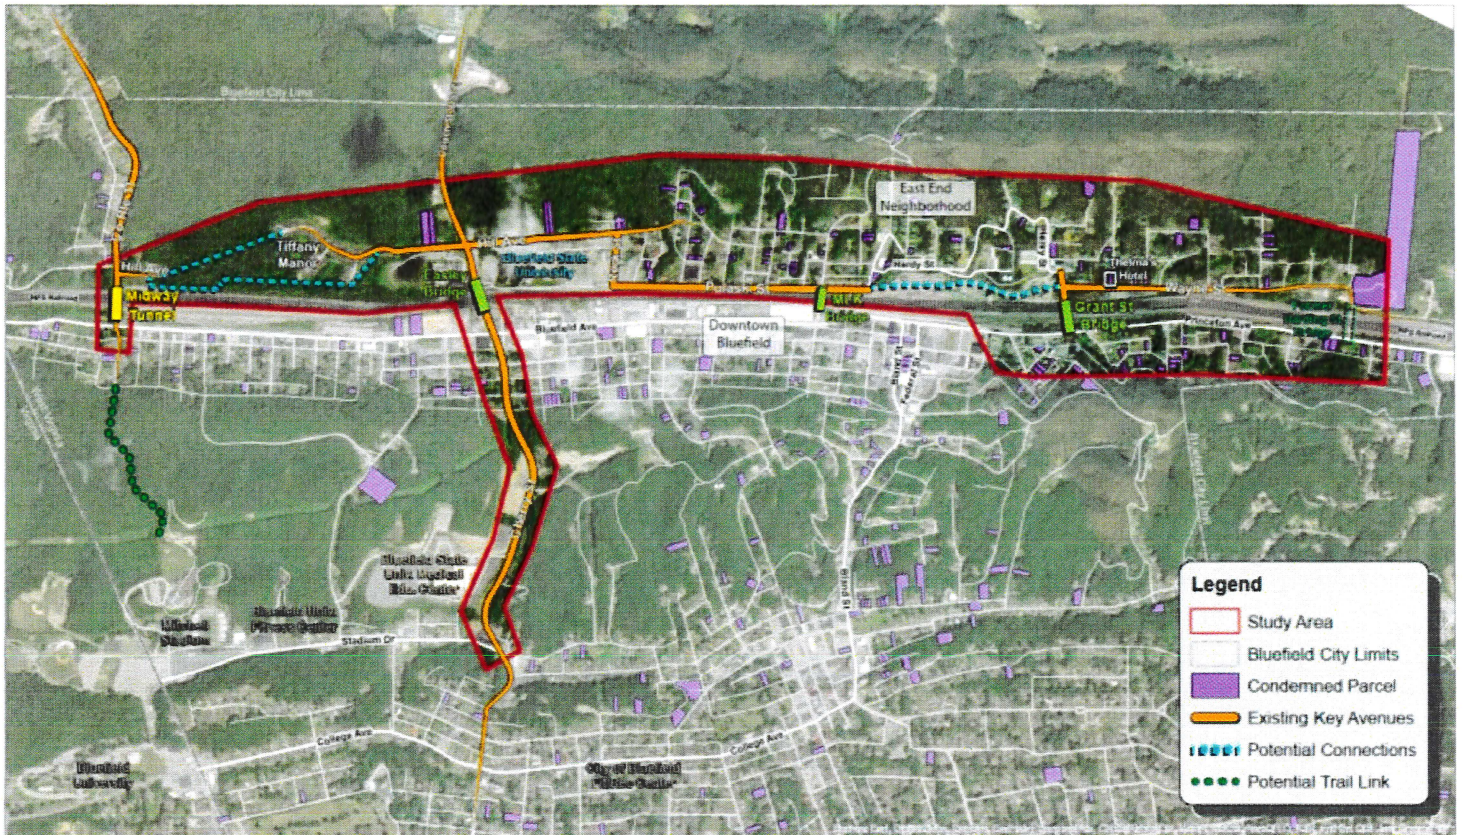

## PORT

The Parkersburg–Ohio River Trail already has two "phases" completed; we're just a brief gap away from having Parkersburg and Vienna connected via a dedicated path! Not only does this mean the Grand Central Mall becoming bike & walk friendly, but large amounts of commuters (such as medical center and Walmart employees) have a new and healthy option for getting to work.

## *Bluefield Reconnecting Communities Study Area*

0 800 1,600 3,200 4,800 6,400 Feet

Bluefield, West Virginia received a \$1 million dollar planning grant through the Reconnecting Communities program in 2022 which ultimately culminated in a state-wide effort that successfully reconnected the east-end to downtown Bluefield.

**The RCP**... is a program intended to mediate the harms of prior infrastructure decisions.

**(Reconnecting Communities Pilot)**

Of particular interest to the program is a dedication to:

- Education -
- Economic Opportunity -
- Healthcare -
- Quality Food -
- Recreation -
- Nature -

**Improving access to all of the above while fostering community development through changes in infrastructure is at the core of the program.**

## Planning Grant Funding

---

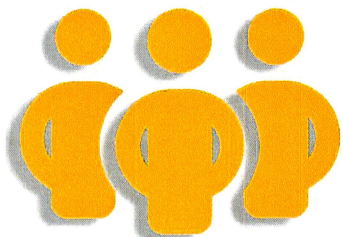

**Applicants use a planning grant to inform an  
Implementation grant in the future.**

**Both the RCP and SS4A programs have  
Implementation grants with significantly  
higher funding awards.**

\* Pictured route(s) represent a collective desire for a connection and not a concrete plan or definitive position.  
Changes may be necessary as additional planning & negotiations take place.

## Segment I: Happy Valley Connector

**Stakeholders  
& Benefitted Parties**

**WVUP**

**Erickson All-Sports  
Facility**

**WV Trails**

**Industrial Heartland  
Trails Coalition**

**Rails-to-Trails  
Conservancy**

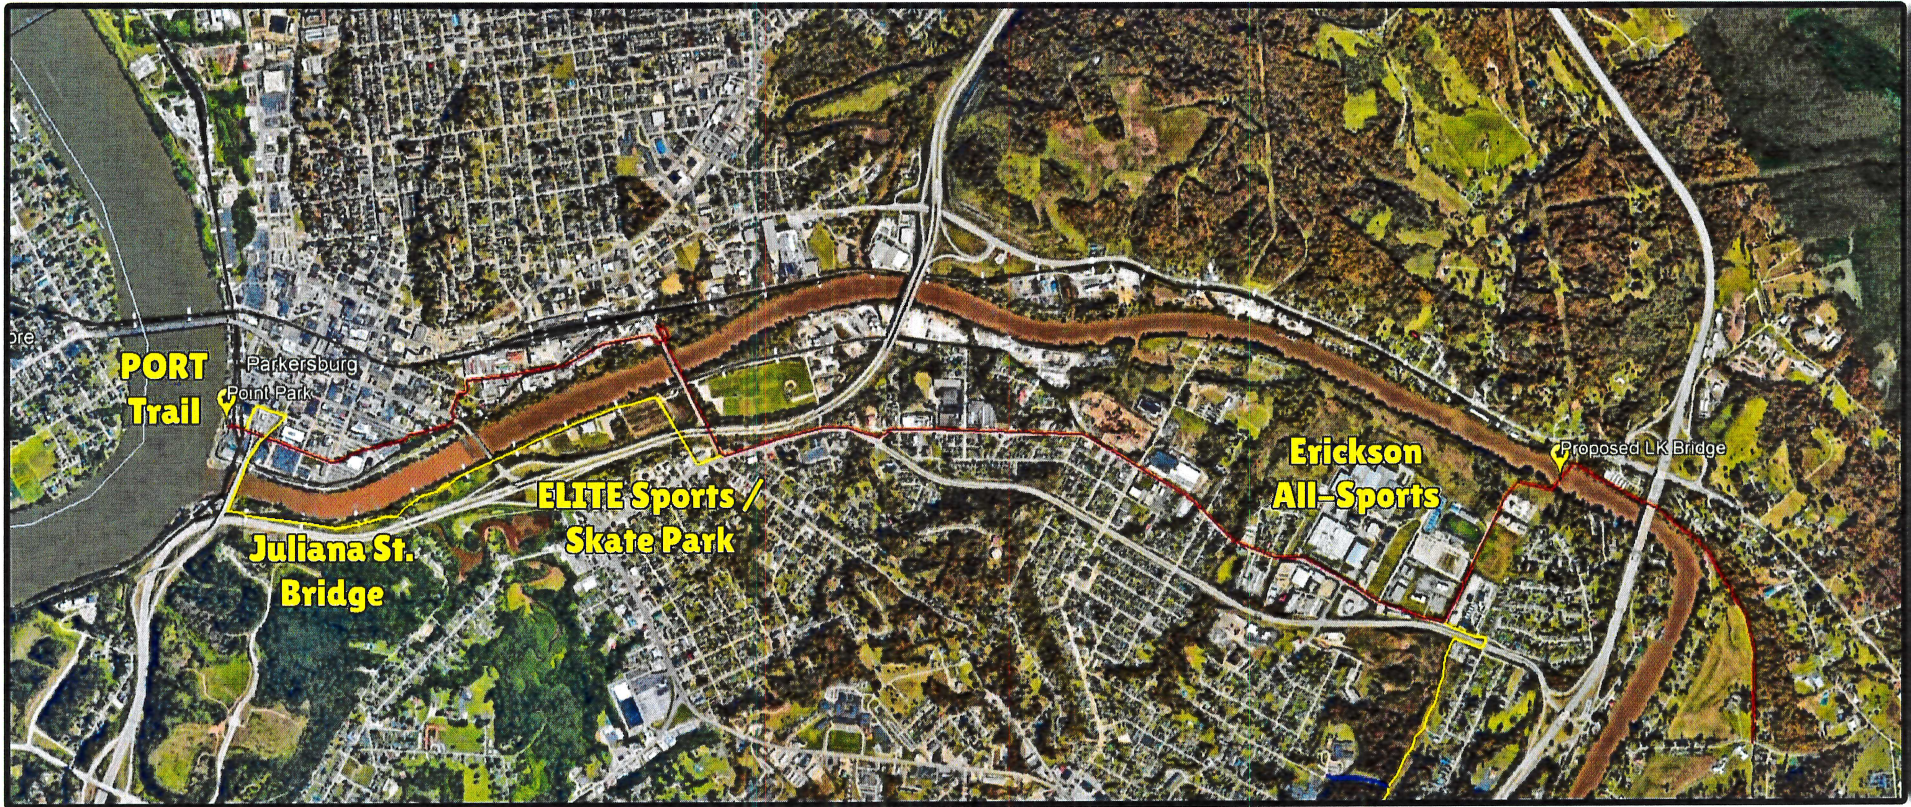

Connecting the North Bend Rail Trail (NBRT) into Parkersburg proper has been a priority for many local and state officials.

Previous routing relied on negotiations with CSX as the trail followed existing railbed, some of which is still in use further north. Balancing this relationship while leaving adequate room for trail users to feel safe alongside Rt.47 has proven difficult.

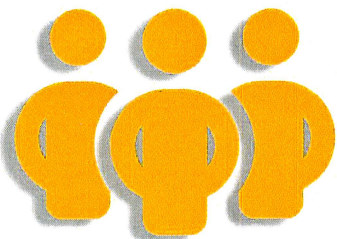

**This** proposed solution utilizes a bridge construction across the Little Kanawha River, connecting it directly into south side Parkersburg. This is nearby to the Erickson All-Sports Facility, many residential communities, and a high-traffic interstate bus stop.

**Additionally**, future expansion west along a powerline clearing would connect these resources with Pike St. commercial & schools.

\* Pictured route(s) represent a collective desire for a connection and not a concrete plan or definitive position. Changes may be necessary as additional planning & negotiations take place.

## Segment II: Downtown Parkersburg / LKC

**Stakeholders  
& Benefitted Parties**

**South Side  
Business**

**Erickson All-Sports  
Facility**

**ELITE Sports /  
Skate Park**

**High Density  
Residential Areas**

**Dean Scott Fields /  
Recreation**

With cooperation from a diverse network of property owners, city representatives, and county officials, connecting into downtown Parkersburg would only require an expansion of existing shoulders.

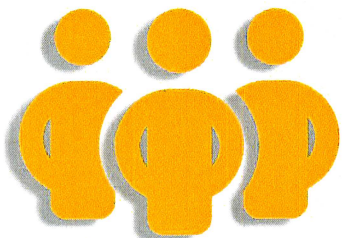

Camden Ave. could benefit from lighting and pedestrian improvements while acting as the segway from our proposed bridge to the pre-existing Little Kanawha Connector. This route is adjacent to many economic forces in the area, driving business while alleviating traffic on the roads. A dedicated divider or sufficiently wide shoulder encourages family and low-confidence riders to utilize the path where today they rely almost exclusively on motor vehicles.

**Alternatively or additionally**, the route could expand to the Juliana St. bridge and connect more directly into downtown Parkersburg. This requires more construction but avoids high-traffic areas.

\* Pictured route(s) represent a collective desire for a connection and not a concrete plan or definitive position. Changes may be necessary as additional planning & negotiations take place.

## Segment III: PORT into Vienna

**Stakeholders  
& Benefitted Parties**

**Bike / Hike  
Local Groups**

**Medical Facilities /  
Patients**

**Commercial  
Dining**

**Grand Central  
Mall Business**

**Wal-Mart in  
Vienna**

The third phase of the Parkersburg–Ohio River Trail (PORT) is all that's needed to finalize our dedicated path into Vienna. This would represent a massive reconnection of Wood County communities split by the high-traffic Murdoch Ave. Employees and shoppers alike would be able to walk or bike alongside the peace of the Ohio River.

**Current** plans rely on a bridge adjacent to the railway, eventually routing into a culvert and finally onto the Grand Central Mall parking lot. While additional considerations may be necessary regarding rider dismount, irrigation, and rail security, the difficult work of PORT Phase II was recently completed; residents are eager to maintain momentum and get to the mall!

**Alternatively**, a direct route following the same proposed bridge runs parallel with the rail and crosses via an existing intersection north.

\* Pictured route(s) represent a collective desire for a connection and not a concrete plan or definitive position.  
Changes may be necessary as additional planning & negotiations take place.

# Map Overview

**This project requires a great deal of additional information, outreach, and study to move forward. Any individual segment would objectively improve community outcomes, but as a unit they represent a transformation of transportation in Wood County.**

**A continued investment in these projects opens the door to further expansion into Williamstown, Mineral Wells, and even out of state such as with the Athens–Belpre Rail Trial.**

**IN THE COUNTY COMMISSION OF WOOD COUNTY, WEST VIRGINIA**

*IN RE:*

WILL OF TIMOTHY M. ANTHONY

CASE No \_\_\_\_\_

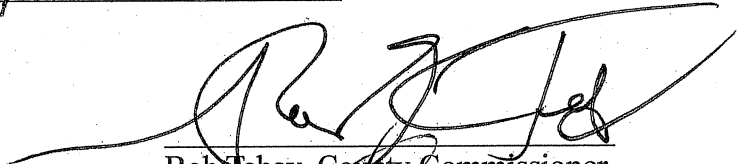

**ORDER FROM HEARING HELD ON AUGUST 15, 2024**

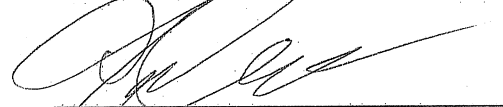

ON THIS 15th day of August, 2024, came the Petitioner, TONDA M. COTTRILL, in person and by counsel, William B. Summers, before the County Commission of Wood County, West Virginia, upon the Petitioner's Motion to Admit the Last Will and Testament of TIMOTHY M. ANTHONY to probate. Upon consideration of the arguments presented by counsel and the testimony of the parties, the Court does FIND and ORDER as follows:

1. That the Will of TIMOTHY M. ANTHONY, dated June 3, 2013, contains errors in page numbering and lacks other formalities required for probate admission.
2. That the County Commission FINDS there is a potential heir to the Estate, being the son of the decedent, currently imprisoned in North Carolina for homicide. The status of this individual as a legal heir is unclear due to information indicating he may have been adopted by another individual, but there is no clear evidence to the contrary.
3. For the reasons stated above in paragraph's 1 and 2, at this time, the County Commission DENIES the hereinbefore filed MOTION TO ADMIT WILL TO PROBATE and will DENY admission of the Will to probate due to the errors and formal deficiencies.
4. That the Petitioner, TONDA M. COTTRILL, is GRANTED leave to present additional evidence to address the issues with the Will, particularly regarding the potential heir's adoption status or any other relevant evidence, including any waivers or evidence that would justify the admission of the Will to probate.

IT IS FURTHER ORDERED that the Clerk of this Court shall send copies of this Order to all parties of record and their counsel.

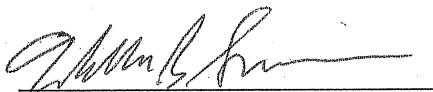

ENTERED on the 12<sup>th</sup> day of September 2024.

**ORDER**

On this date, Joe Gonzales, County Clerk of the County Commission of Wood County, submitted the lists of poll workers for the upcoming General Election to be held on November 5, 2024. Upon a motion made by David Blair Couch, seconded by Robert K. Tebay and made unanimous by James E. Colombo, the County Commission approved said lists of poll workers. A copy of the lists of poll workers is attached to this Order and shall be made a part thereof.

APPROVED:

THE COUNTY COMMISSION OF WOOD COUNTY

  
\_\_\_\_\_  
David Blair Couch, President

  
\_\_\_\_\_  
Robert K. Tebay, Commissioner

  
\_\_\_\_\_  
James E. Colombo, Commissioner

SUBMITTED TO: Wood County Commission

JOB NAME & LOCATION: Wood County Resiliency Center – Parkersburg, WV

QUOTE TRACKER NO: 240910KF

CCR NO: 037 Rev 1 – Panel Partition – Additional Steel

We hereby propose to furnish all material, labor & equipment for the above referenced project as per scope of work as specified below:

### Scope of Work:

1. Remove and reinstall ceiling grid in (10) locations to provide access to install the threaded rods and tube steel.
2. Precautions will be taken to prevent as much damage to existing finishes as possible. This includes plastic, ram board, welding blankets, and plywood to protect carpet.
3. Lay down plywood on the metal studs to provide a working platform and distribute weight.
4. Install threaded rod between the W8's and channel as shown in SK1.
5. Weld HSS 4x4x1/4 between the channel and existing steel tube lintel.
6. Readjust panel partition track.

### Alternate 1:

1. Install threaded rod between the W12's and W16's to further strengthen and reduce the sagging of the operable panel support steel.

### Exclusions, clarifications, and assumptions:

1. This area has very limited space and UCCI cannot guarantee the drywall will not crack due to working on the plywood platform.
2. Although UCCI is taking precautions to protect existing finishes, an allowance is **NOT** included to make any repairs, and they will be performed on a T&M basis.
3. All material pricing is based upon current market and is subject to change.
4. Any delays beyond the control of UCCI will be billed T&M.
5. The following is excluded: Testing of any kind, permits, underground utility work and repair, removal of any hazardous materials, and anything not specifically mentioned in the scope of work.

Lump Sum: \$38,515.00

Alternate 1: ADD \$16,585.00

*IF DAMAGES, NOT Wood - Zmm*
