- B) Went to the Expo in Charleston.
- C) Did disconnects for the month.
- D) Completed work orders, spotted lines, set meters, etc.

It was reported what Rod and Bill have been working on:

A) March Water Pumped to System: 22,777,000 Gallons
Homewood Booster Station: 183,000 Gallons
New England Booster Station: 1,783,000 Gallons
High Water Usage and Day: 959,000 on 03/04
Low Water Usage and Day: 607,000 on 03/10

B) Have experienced 200,000 gallons in overflows.

#### **GENERAL BUSINESS:**

A) Moved by Lee Johnson, seconded by Dave Steele that all bills be approved as reviewed by management and the Board, in addition to all fund transfers as presented. Passed unanimously.

- B) The District will be hiring out the mowing this year as was done last year and for the same pricing.
- C) The District has received an "Honorable Mention" in the 2001 USEPA Operations and Maintenance Excellence Awards Program. The District will be receiving a plaque at the awards banquet on May 21st.
- D) Upon discussion with Marlin and Kevin Sams, agreement was reached regarding a tap requested by the Sams at Pointe West and rights of way required by the District.
- E) Jim called the Public Service Commission (PSC) today to see how the engineers contract is coming. Ron Robertson, attorney for the PSC told me that he had issued the Final Joint Memorandum and that it would now be up the Administrative Law Judge to issue his decision. Ron also stated that he would expect that to happen in the next few days.
- F) The District will be filing five (5) suits tomorrow against some of the customers who have yet to connect to the sewer system.
- G) Mike McNulty of the West Virginia Rural Water called asking about the Districts application to the Drinking Water Revolving Fund concerning the new tanks and air stripper. Jim stated that the application had been in over two (2) years and that we were initially told that we would be funded the following spring when they received money because this was just the type of project that they were looking to finance. Mike relayed the fact that the District's project had dropped from #19 to now #36 on the list since they have now combined more projects into the list. Jim told Mike that the District had done a couple of things to try and get the project moving. First, the District asked for Infrastructure financing in addition to Drinking Water. Secondly, the District had sent an application to the PSC for approval of an engineering agreement for the design of the tanks, etc. Mike suggested that the District talk to our Delegates and Senator about this. Mike's interest lies in the fact that Rural Water gets 2% of the Drinking Water money to operate their training programs. With the State not funding any projects, Rural Water is not receiving any training money.

- H) The District has had Hy Vac come down and do some training on the vac truck. The person who did the training mentioned that they had taken a vac truck in that has a jetting attachment on it. This would be better suited for the District's needs than the one we have now. Jim wants to check into the traded truck and see how we could trade for it.
- I) Info on C-8.
- J) Jim notified the Board of the need to hold a public meeting with the Wood County Commissioners for the Wadesville Water Project. Mid Ohio Valley Regional Council is working on setting that up.
- K) Meeting adjourned.
