Mr. David Blair Couch, Commissioner  
The County Commission of Wood County  
No.1 Court Square, Suite 203  
Parkersburg, WV 26101

RE: Industrial Warehouse Fire Response Support & Fire Suppression Services

Dear Mr. Couch:

Thank you for contracting Specialized Professional Services, Inc. (SPSI) to assist your County with the above-referenced plastic's warehouse fire that occurred on October 21<sup>st</sup> 2017.

It was an honor and a pleasure working together with your local emergency services responders and incident command staff to minimize the impact to the communities affected. Your local responders did an amazing job of protecting the areas surrounding that massive fire, and the support of your community was evident during the event.

I realize that you and your fellow commissioners were forced into a tough decision to bring in contracted resources such as SPSI, and I sincerely respect and admire your decision to do so. I am proud to have been part of the team effort on this incident, and please know that we are always happy to help should anything like this ever happen in the future.

I also plan to send a note to the Governor for his commitment to ensure emergency funding to Wood County for compensating SPSI and other supporting response costs that your County has incurred during its response to this incident.

Enclosed with this letter is a copy of our latest rate schedule (May 2017) and two invoices documenting our service line items with the costs for services performed. As you review these invoices, you will find complete back-up documentation for all charges outlined, and I am confident that you will find all charges to be fair, reasonable, and completely transparent. As you review these invoices, please do not hesitate to call me on my cell phone to discuss any questions at any time.

Thank You for this opportunity to help Wood County.

Sincerely;

Drew McCarty  
President

FENCE1	Orange Safety Fence	100 foot rolls	\$ 95.00	each	
SILT1	Silt Fence	100 foot rolls	\$ 95.00	each	

SECTION 6.0 NOTES:

- 1 All material handling and control equipment is subject to decontamination and/or repair and/or replacement if damaged, lost, stolen, or otherwise considered no longer usable again. Such decontamination work will be performed in accordance with SPSI's non-emergency rates presented in Section 1.0.A.
- 2 MVU comes with full tank of fuel. Fuel usage is at cost, plus 20%.
- 3 The per event price will include up to one week of use. This should allow enough time to get disposition of the damaged unit inside. Any longer use of the casket will be negotiated compensation.

**SECTION 7.0: Communications Equipment**
